

## CUSTOMER SUCCESS STORY

# Silesian University in Opava

Full flexibility with 100% individuality:  
TeamConnect Ceiling 2 in a meeting room  
with special requirements at the School of  
Business Administration in Karviná

“The important factor for us was the flexibility of TeamConnect Ceiling 2 as our conference room is not of the standard shape, and additionally we can easily change the seating order.”

Jakub Ježíšek, technical specialist and IT manager at SBA

### Challenge

As the conference room at the School of Business Administration (SBA) in Karviná it was about is not of the usual standard dimensions, the most important requirement for the new microphone was that it should be flexible. Another requirement was that the new mic solution needed to be easily implemented into the existing video conferencing ecosystem and be adaptable to different room setups.

### Solution

TeamConnect Ceiling 2 was chosen for the conference room because of its tremendous flexibility, the superb audio characteristics and simple implementation in the video conferencing chain.
