

# LinkDesk software

## Software Version 1.0.0

# LINKDESK

LinkDesk software is a desktop application and centralized user interface for the world's first wideband bidirectional wireless solution — Spectera. With LinkDesk and Spectera, you get an intuitive workflow and unprecedented remote control and monitoring capabilities, plus visibility of IEM volume, latency, audio level and settings, RF health, battery status — and more.

The software's RF manager provides a continuous spectrum scan via Spectera's innovative DAD antenna. LinkDesk's assistive behaviors also allow for quick and easy system management, while its production handling allows you to manage, store and recall multiple Base Station configurations instantly.

### KEY FEATURES

- Intuitive desktop application for full system management
- Notification system to expedite workflows and troubleshooting
- Assistive behaviors for quick and easy system management
- Production handling: manage, store, and recall multiple Base Station configurations instantly
- Full remote control and monitoring of all Spectera ecosystem components including Base Station, DAD antenna, SEK bodypacks
- Unprecedented remote control and monitoring capabilities, plus visibility of IEM volume, latency, audio level and settings, RF health, battery status — and more
- RF manager for continuous spectrum scan via DAD antenna
- License activation for Base Station

### SOFTWARE DOWNLOAD

### OPERATING SYSTEM

- Windows®
- MacOS

### PRODUCT SUPPORT

- Base Station
- DAD Antenna
- SEK bodypacks

### LANGUAGE SUPPORT

- English

# LinkDesk software

## Software Version 1.0.0

### SYSTEM REQUIREMENTS

#### Recommended for Host PC

- Intel i5 Dual Core processor/M1 Mac/or similar
- 16 GB RAM
- at least 4 GB hard disk space (5 GB for Mac devices)
- Gigabit LAN interface
- Windows® 10, 11, Server 2019, Server 2022
- Mac OS Sonoma or later
- IPv4 network

### PORT REQUIREMENTS

| Address   | Port  | Protocol    | Type       | Service                   | Usage   |
|---|-------|-------------|------------|---------------------------|---|
| Internal Host   |       |             |            |                           |   |
| LOCALHOST   | 54352 | HTTPS (TCP) | Unicast    | LinkDesk Backend          | Internal backend communication                    |
| Outbound Host   |       |             |            |                           |   |
| ANY   | 443   | HTTPS (TCP) | Unicast    | Spectera Base Station API | Communication to devices                          |
| Pro EMEA Accounts <sup>1</sup><br>B2C Config <sup>2</sup> | 443   | HTTPS (TCP) | Unicast    | Sennheiser CIAM           | Sennheiser account sign-in/log-In                 |
| User insights <sup>3</sup><br>Matomo <sup>4</sup>         | 443   | HTTPS (TCP) | Unicast    | Sennheiser User Insights  | Usage and operational data analytics              |
| Inbound Host  |       |             |            |                           |   |
| ANY   | 443   | HTTPS (TCP) | Unicast    | Spectera Base Station API | Base Station API<br>Communication from devices    |
| 224.0.0.251   | 5353  | mDNS (UDP)  | Multi-cast | mDNS, DNS-SD              | (optional - if required) device/service discovery |
